

IPTV on Roku Installation Guide

The following instructions will show you to install IPTV on [Roku Streaming Stick+](#).

However, these instructions for installing IPTV on Roku will also work for any device variation you prefer.

1. Open your Roku device and click the following buttons on your remote:

- Home button 3 times
- Followed by the Up button twice
- Then Right button once
- Left button once
- Right button once
- Left button once
- Right button once

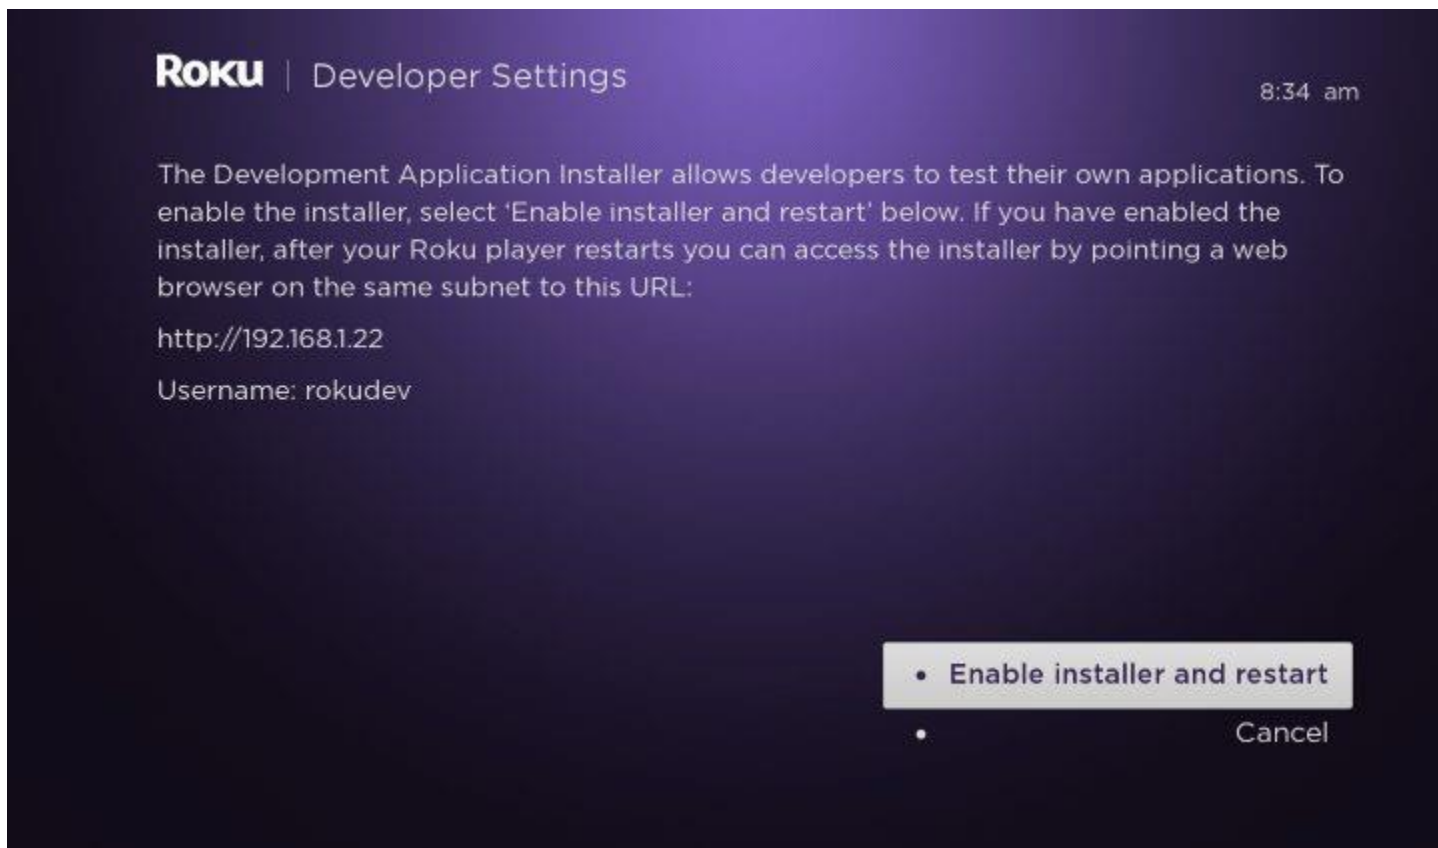

2. This will then launch the "Developer Options" screen

IMPORTANT: You must make note of the provided URL that we will use later.

In this instance, the URL is `http://192.168.1.22`. Yours will be different

Click Enable installer and restart

3. Scroll down and click I Agree to Developer Tools License Agreement

agrees that it and the person(s) to whom it discloses Confidential Information will not use such Confidential Information for any reason or purpose other than to perform its obligations under this Agreement. Confidential Information shall not include any information which (i) was publicly known and made generally available in the public domain prior to the time of disclosure by Roku; (ii) becomes publicly known and made generally available after disclosure by Roku to Developer through no action or inaction of Developer; (iii) is already in the possession of Developer at the time of disclosure by Roku as shown by Developer's files and records immediately prior to the time of disclosure; (iv) is obtained by Developer from a third party without a breach of such third party's obligations of confidentiality; (v) is independently developed by Developer without use of or reference to Confidential Information, as shown by documents and other competent evidence in Developer's possession; or (vi) is required by law to be disclosed by Developer, provided that Developer gives the Roku prompt written notice of such requirement prior to such disclosure and provides Roku with assistance in obtaining an order protecting the information from public disclosure.

• I Agree

• Cancel

4. When prompted, enter a PIN Number of your choice and click Set password and reboot

velopment webserver password (minimum 4 characters)

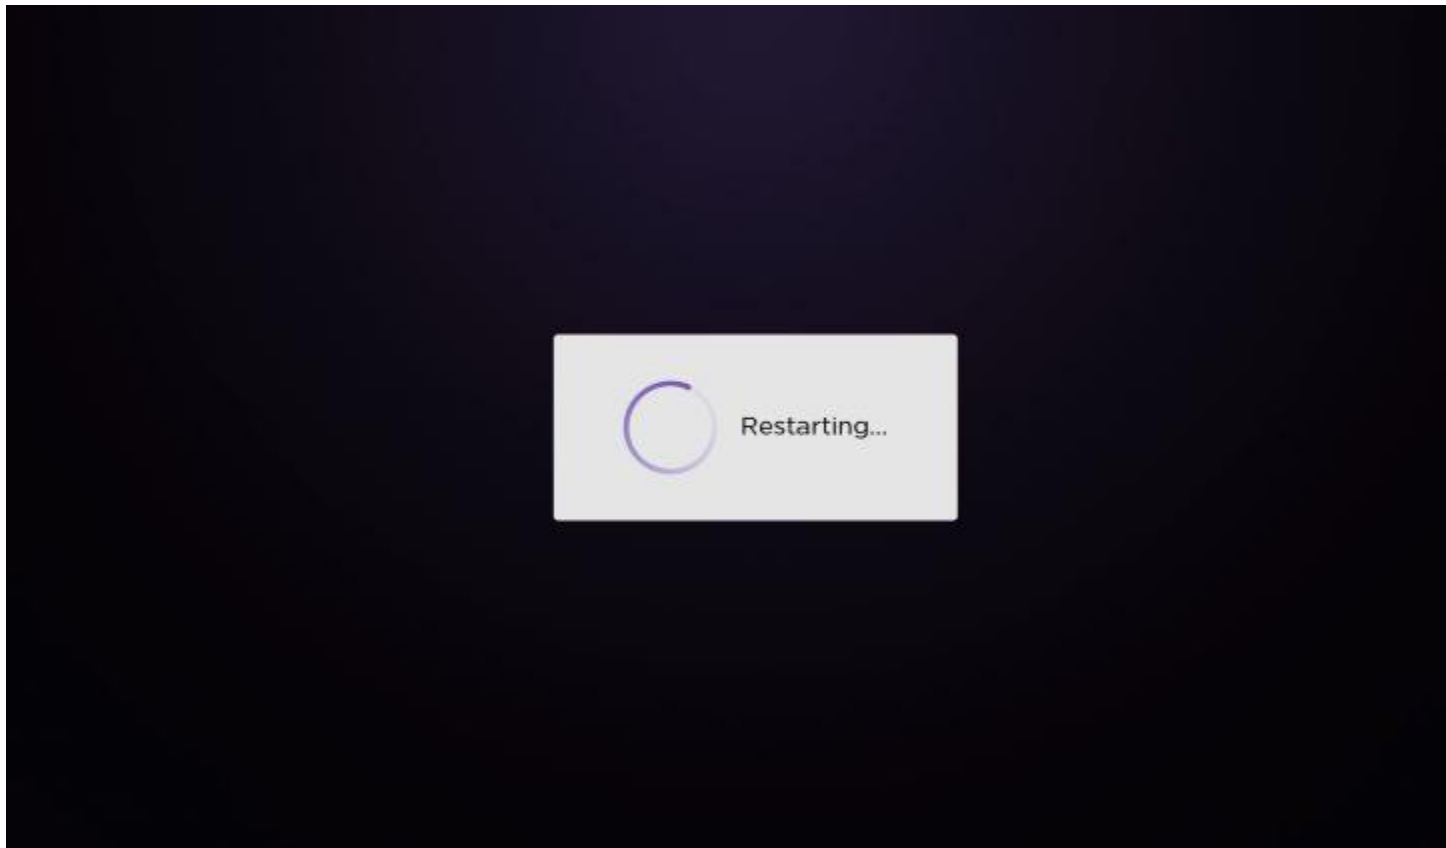

Webserver username is 'rokudev'

↑	a	b	c	d	e	f	g	1	2	3	<input type="checkbox"/> ↑
↵	h	i	j	k	l	m	n	4	5	6	<input checked="" type="radio"/> ABC123
⊞	o	p	q	r	s	t	u	7	8	9	<input type="radio"/> !?#%&
← →	v	w	x	y	z	-	_	@	.	0	<input type="radio"/> àéâœø

Set password and reboot

Cancel

5. Your device will restart

6. Enter the Developer Settings prompt again (Step 1) to make sure Developer settings are enabled

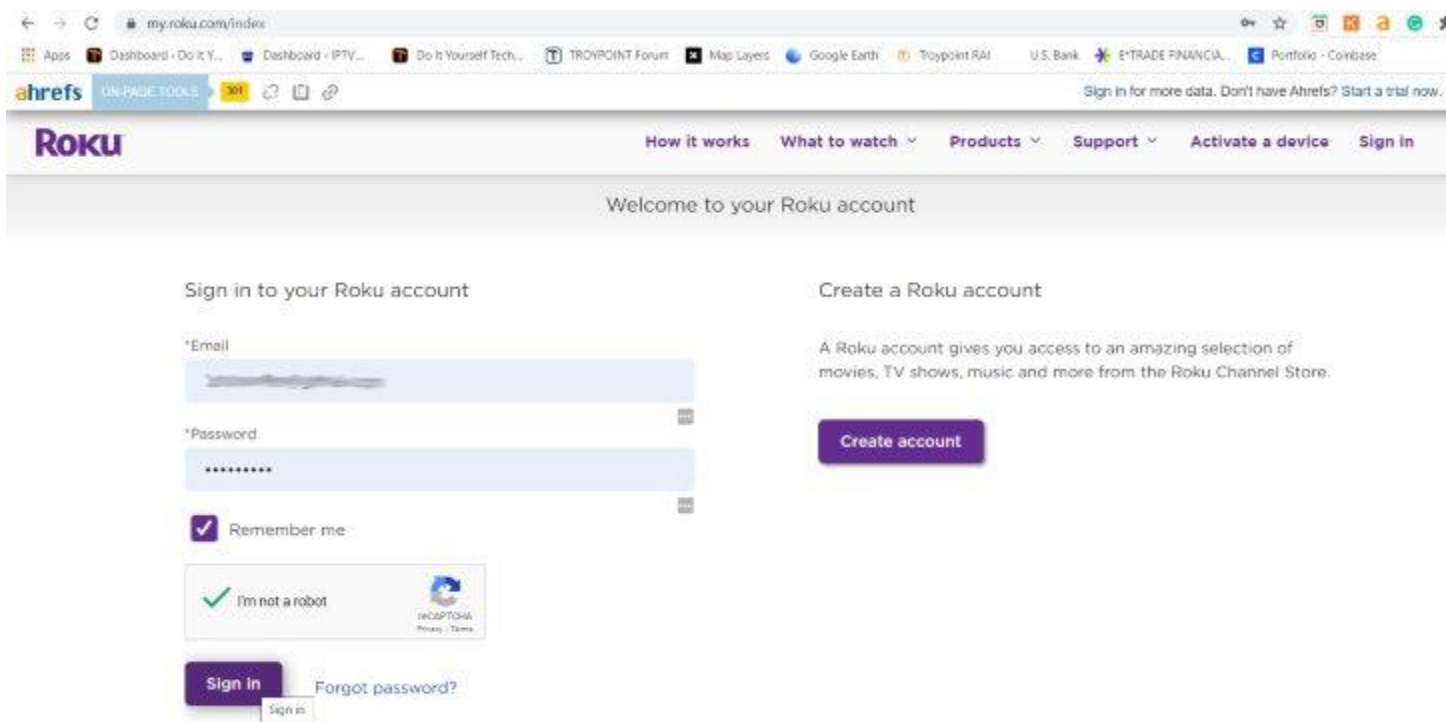

The Development Application Installer allows developers to test their own applications. To disable the installer, select 'Disable installer and restart' below. If you have enabled the installer, after your Roku player restarts you can access the installer by pointing a web browser on the same subnet to this URL:

http://192.168.1.22

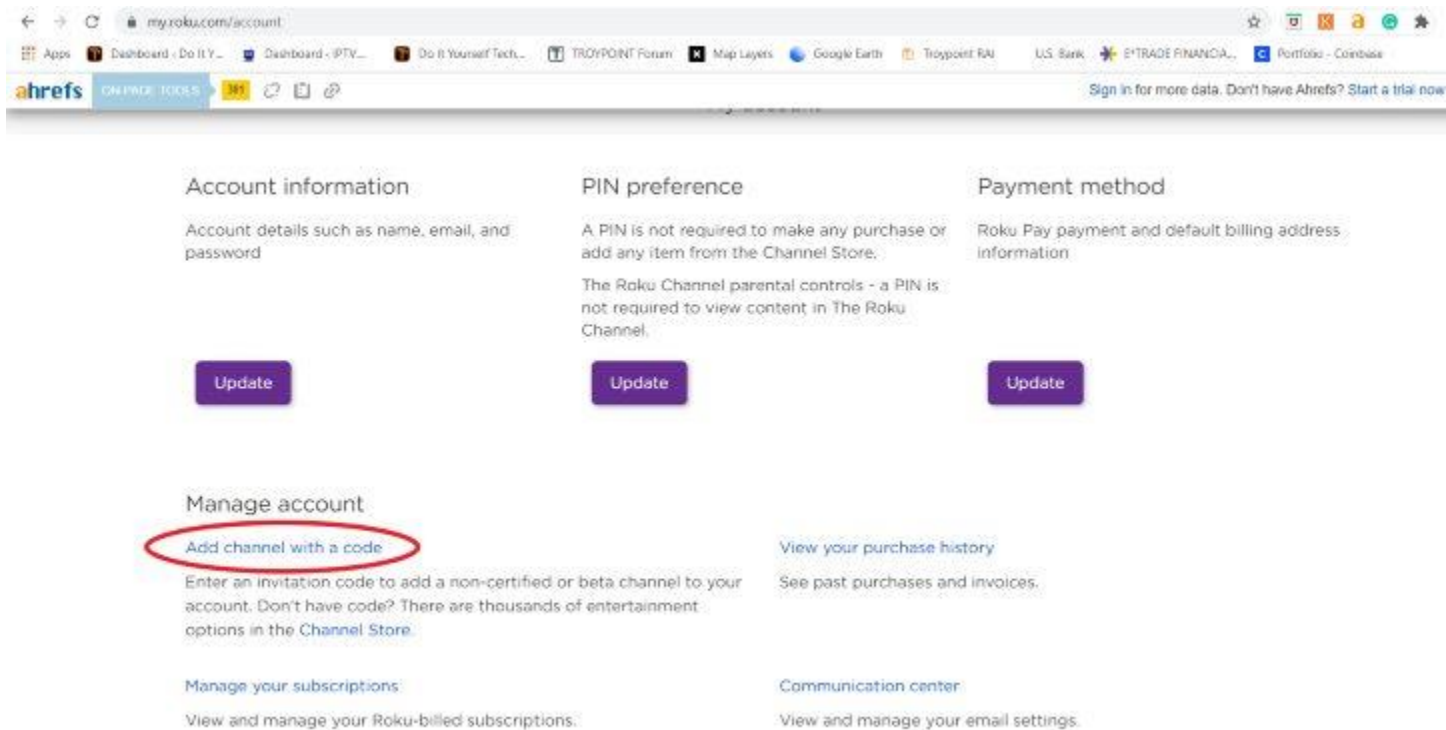

Username: rokudev

- **Disable installer and restart**
- Reset password
- Cancel

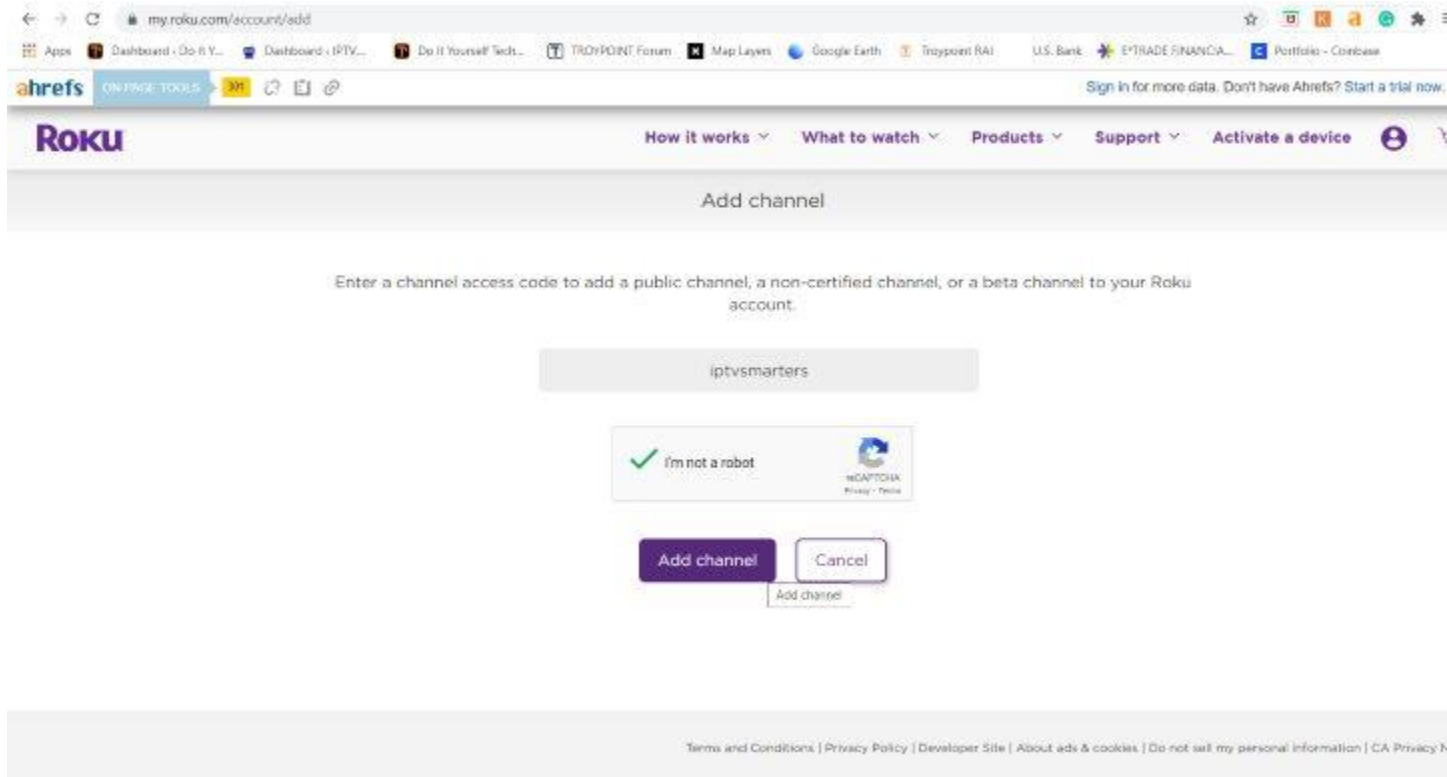

7. We will now open a browser on our computer and go to my.roku.com. Enter your account information and click Sign in

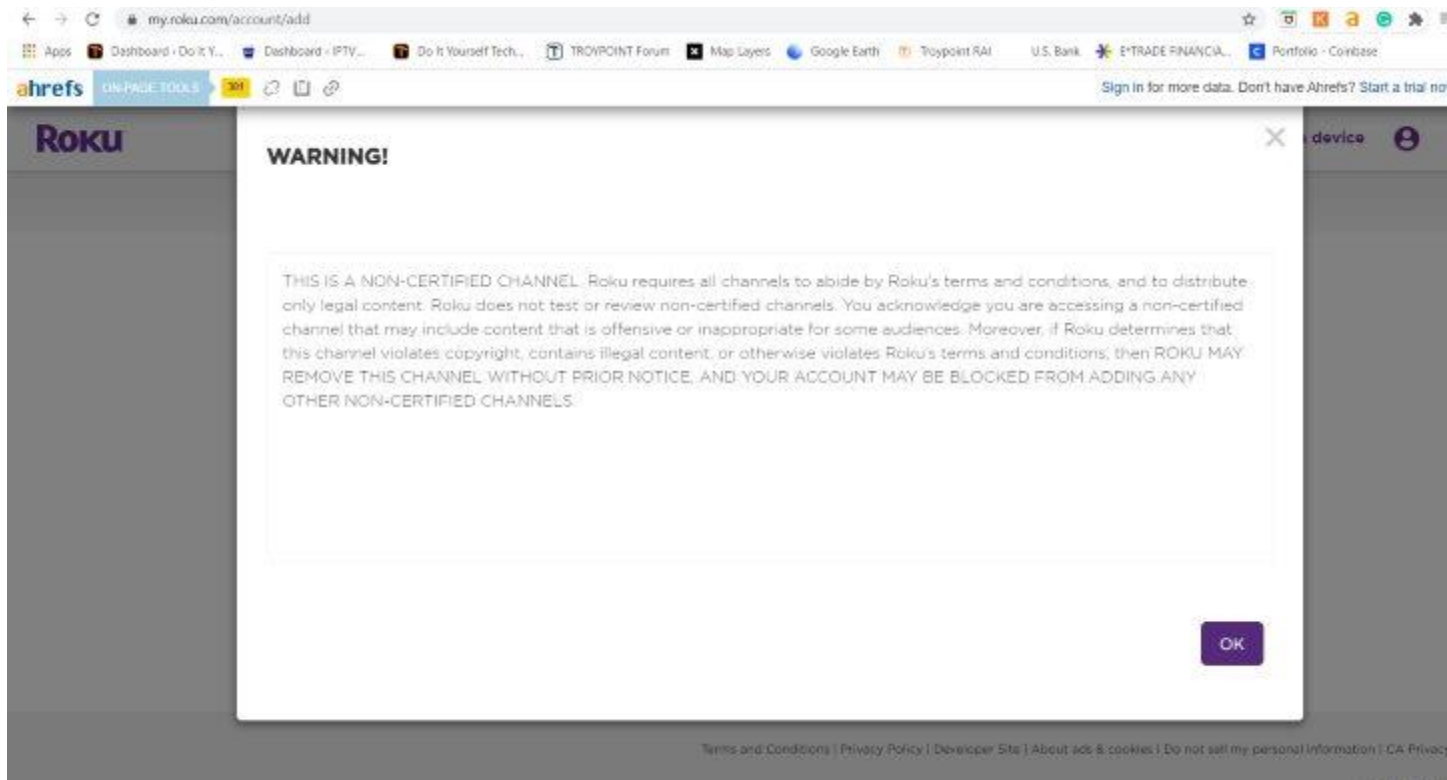

8. Choose Add channel with a code

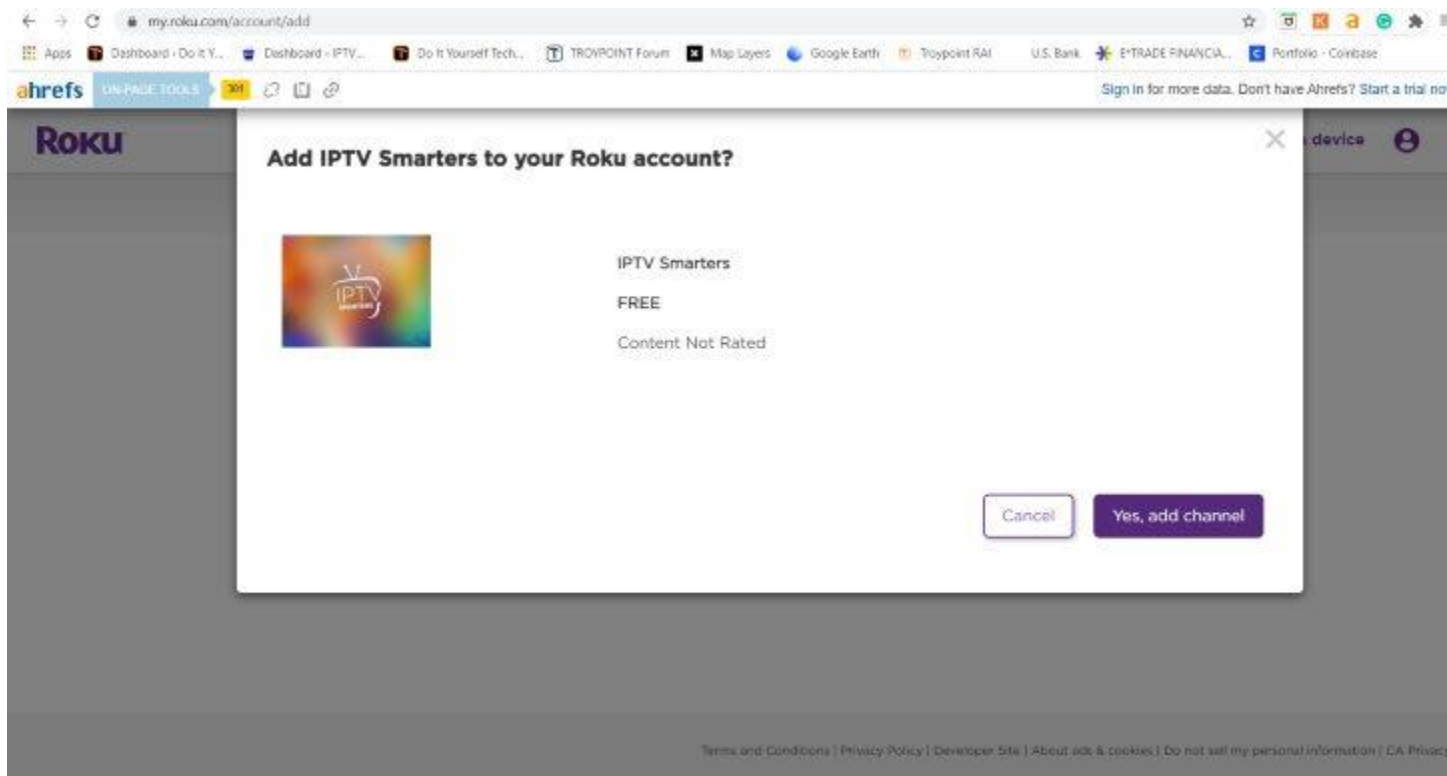

9. Type iptvsmarters and click Add channel

10. Click OK

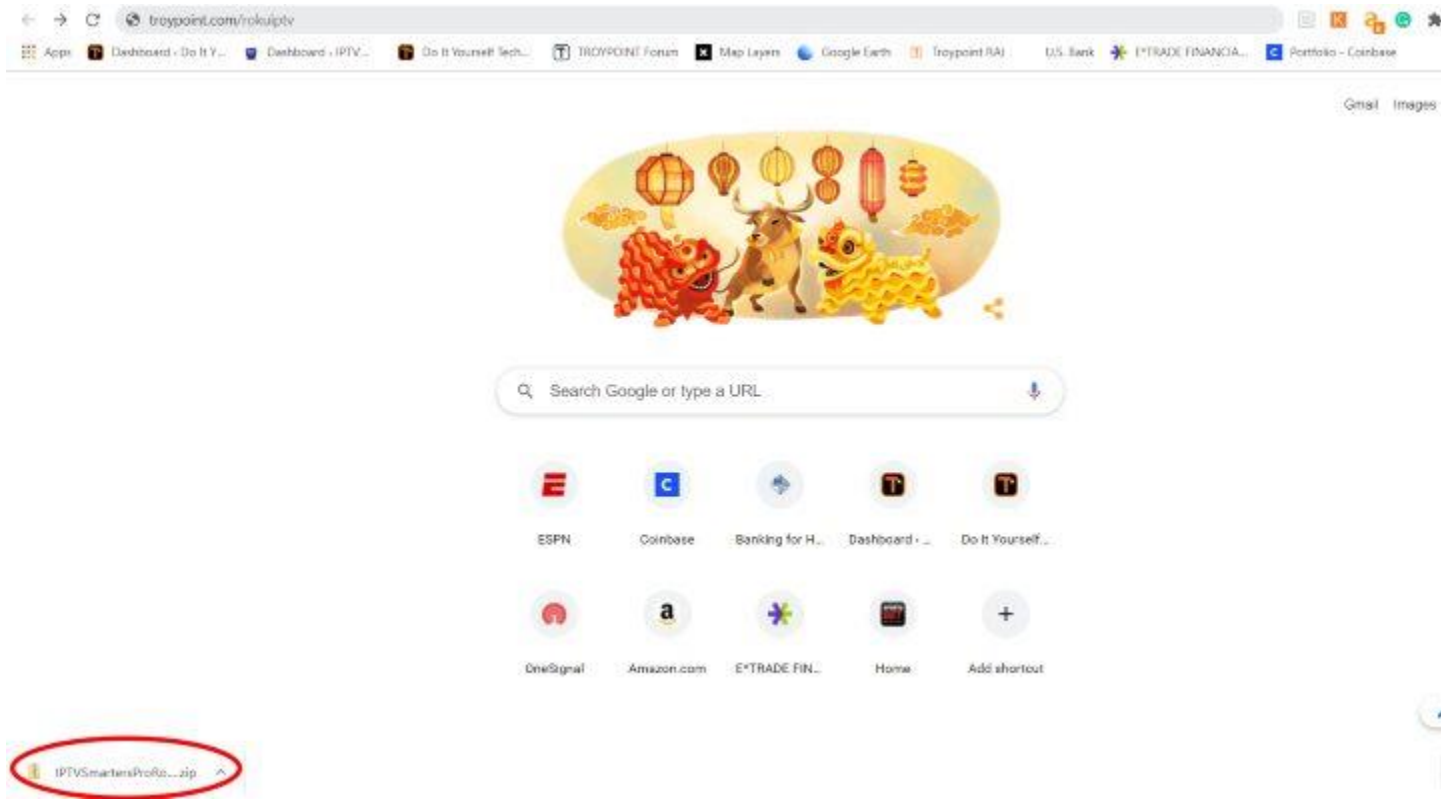

11. Click Yes, add channel

12. Next, we must install IPTV Smarters file onto our computer for upload.

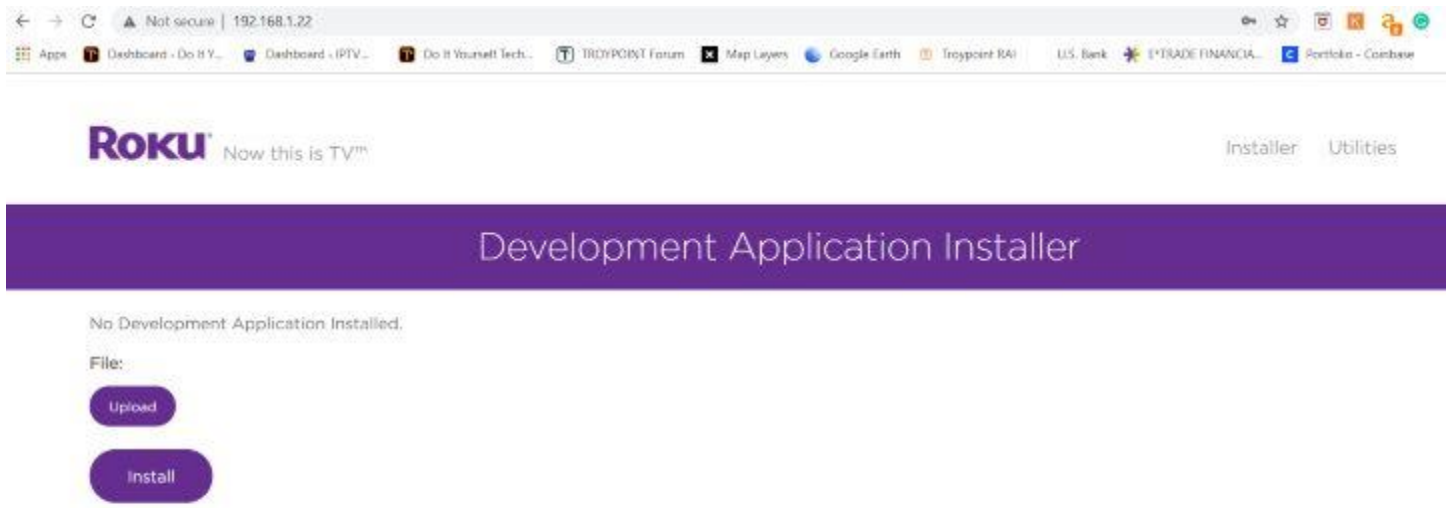

On your browser type, **troypoint.com/rokuipvtv** and the file will install

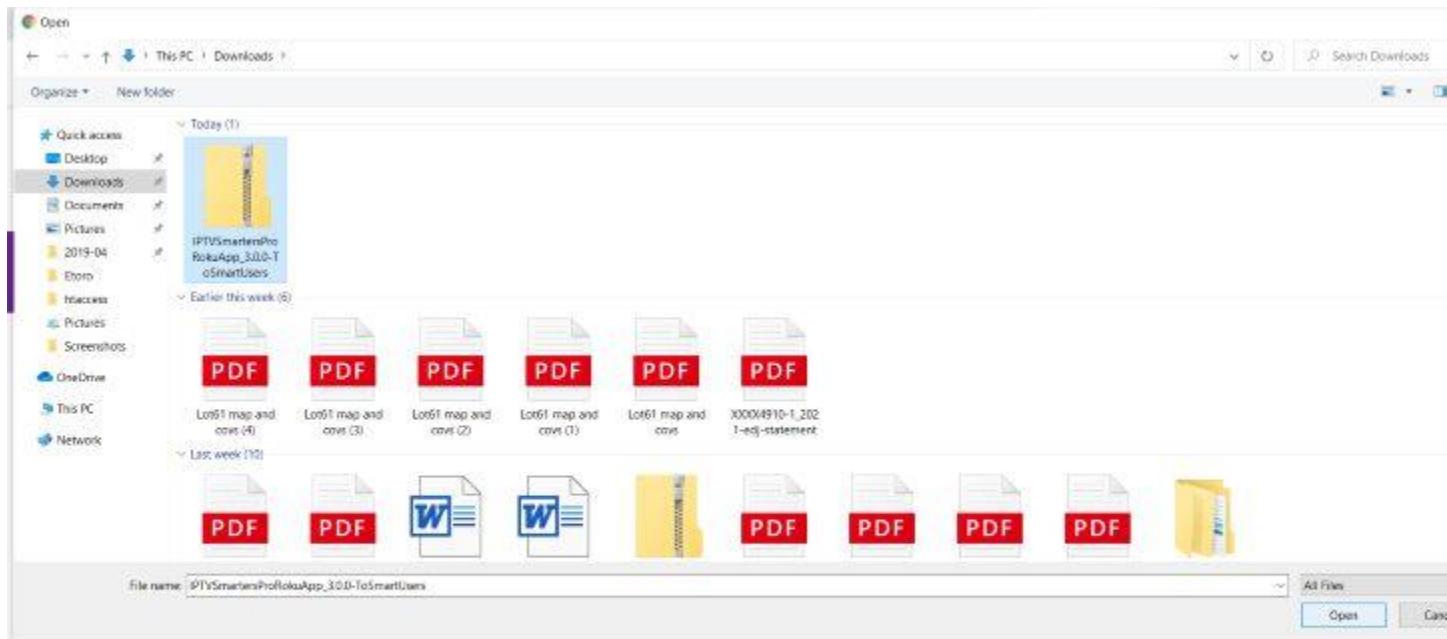

13. We will now go to the IP URL from above on our browser and Sign In with username: rokudev and password we created earlier

14. Click Upload

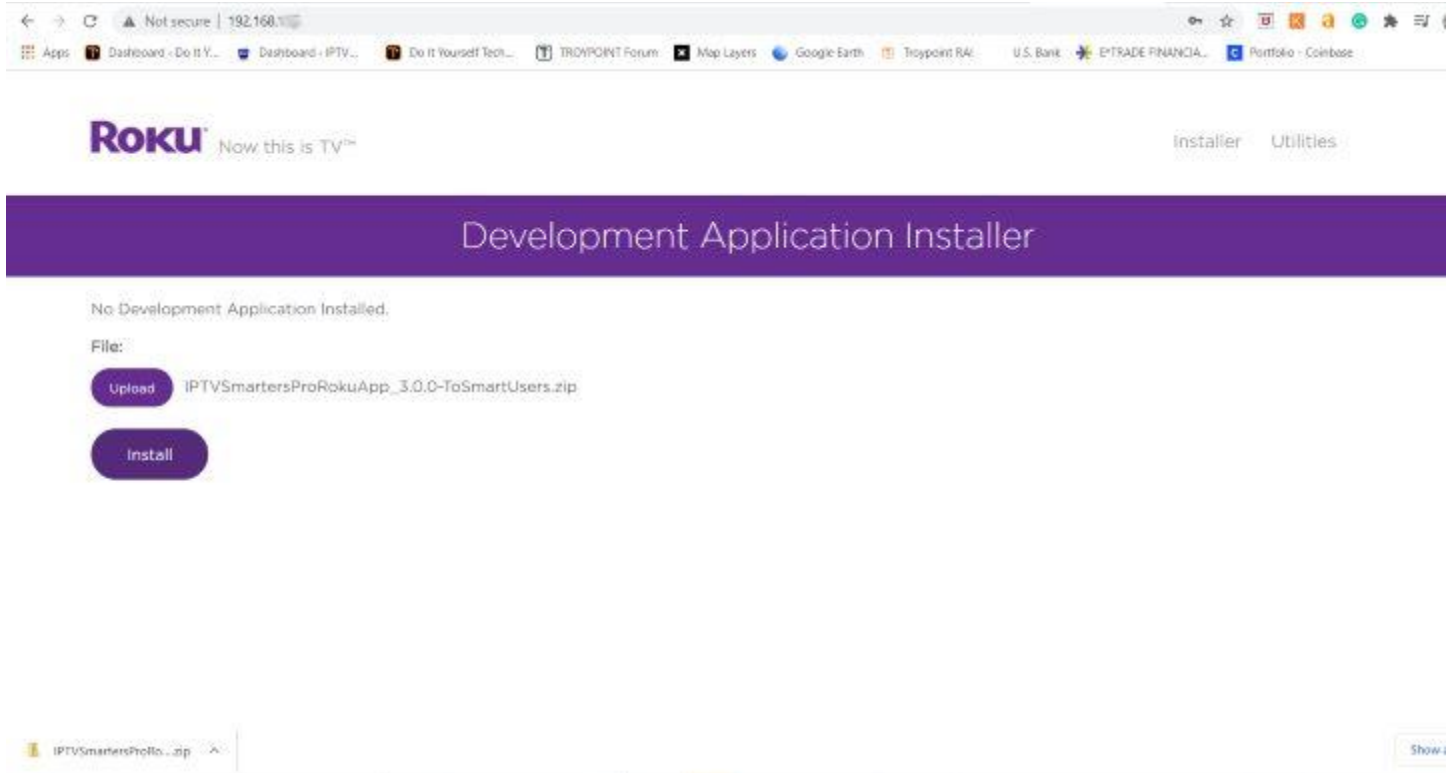

15. Choose the previously downloaded IPTV Smarters file

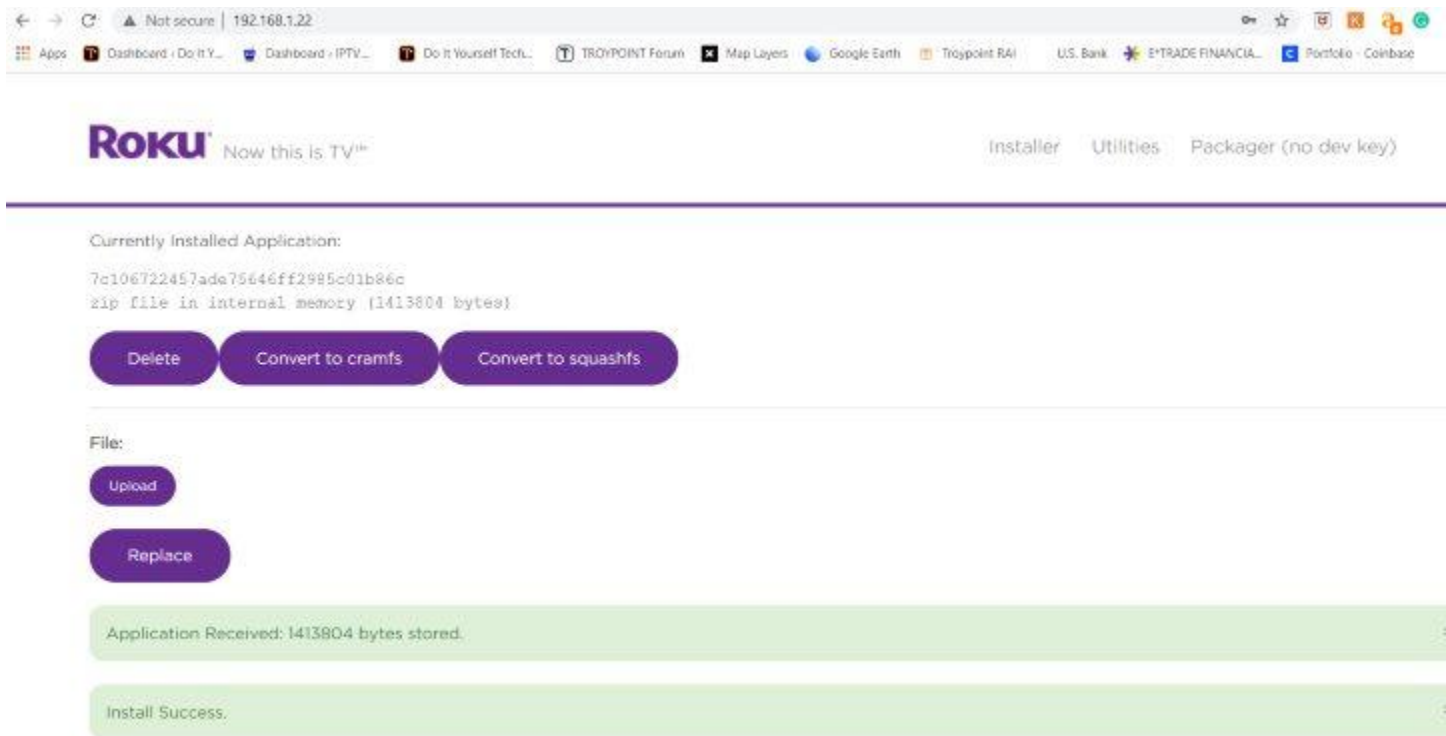

IPTVSmartersProRokuApp_3.0.0-ToSmartUsers

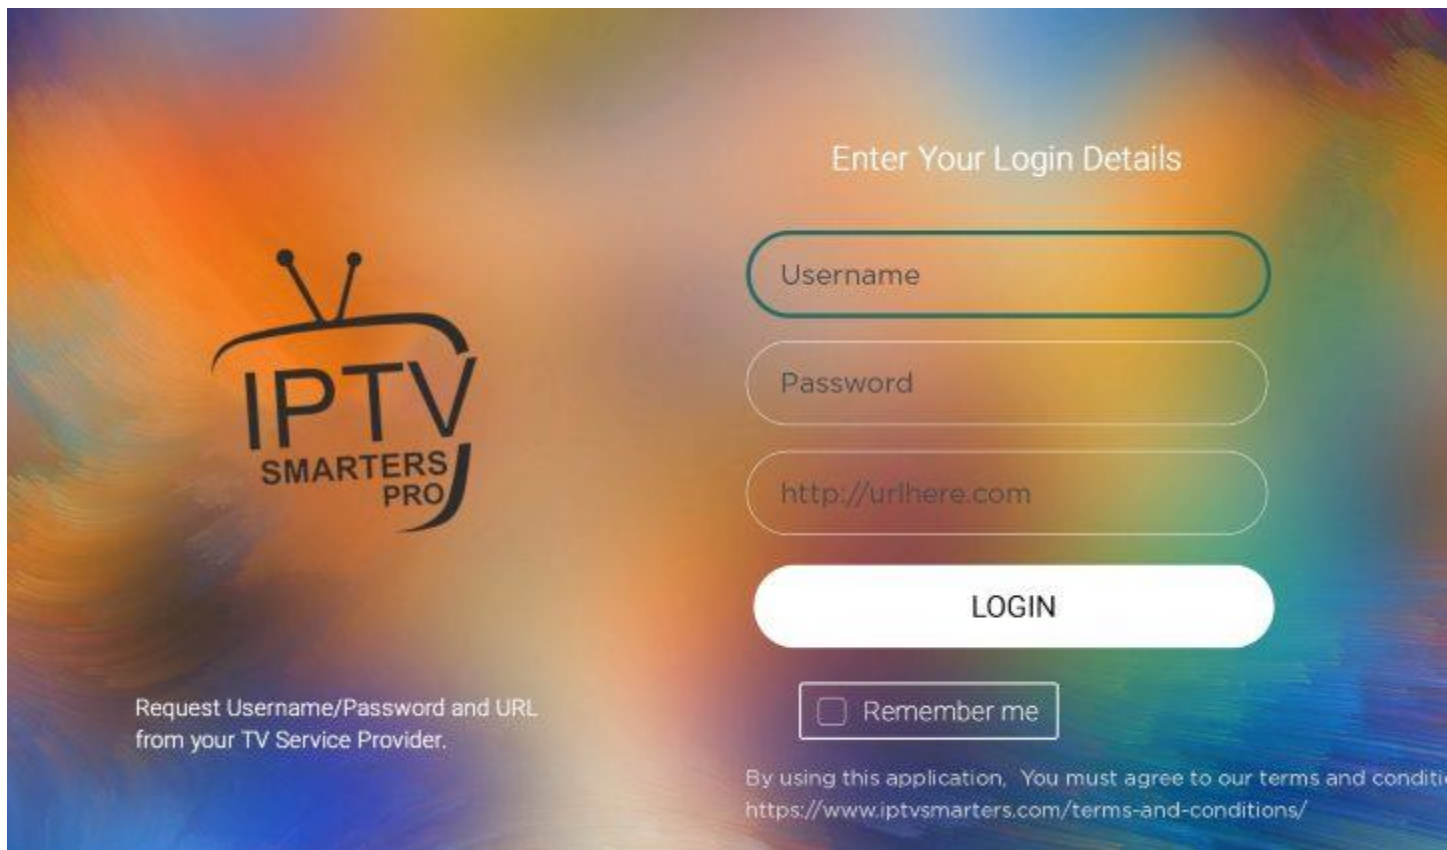

16. Click Install

17. You will then encounter Application Installed Screen

18. Return to your Roku Device where the application will automatically launch

19. Enter your IPTV login credentials and click Login. Enjoy!

Username and Password will be found in your IPTV settings when you log into your Future TV account.

Enter: <https://cms.futuretvnow.com/>

Or

<https://cms.futuretvnow.com:443>

for the URL.

Request Username/Password and URL
from your TV Service Provider.

Enter Your Login Details

LOGIN
